

# XII Congresso Nazionale FIAMO

Federazione Italiana Associazioni e medici omeopati

Florence (Italy), 28-30 march 2014

## TO HOMOEOPATHS: LETTER OF PLEAD FROM THE PEOPLE OF TRAUMA

### ILLUSTRIOUS DOCTORS, VETERINARIANS, PHARMACISTS, AGRONOMISTS, PSYCHOLOGISTS AND HOMEOPATHS IN GENERAL:

We learned about your important Congress that this year will deal with “TRAUMA”.

We are the PEOPLE of TRAUMA, a numerous community, often invisible and unheard: a community who would have something to say. The word trauma has a Greek root meaning - *tar or -tra* indicating the direction of movement, going beyond. We are experts in moving – and that is why they call us animals – and we are experts in trauma... in going to the “beyond”.

We are everyday in front of your eyes, on your plates, we enter your mouths and go through your bowels, we dress you with clothes and we entertain you. We give you power, profit, symbols and affection... but you don't see us and you don't hear us. You, human animals, feel different – and indeed you are – and so different that you exclude yourselves from the network of nature.

You feel different and, pursuant to those differences, even superior to us and therefore allowed to consider and treat us as slaves to be exploited and eventually slaughtered in the most diverse and incredible forms possible.

Whatever comes to your mind, you have already done to us.

We, the PEOPLE of TRAUMA, today, in this ever so important moment in medicine, plead for your attention.

We would like to remind you that you, human animals, after having partially made us domesticated, you have arbitrarily put us into categories of wild and domesticated. Then you have created other statuses to suit your interests : the useful and harmful. We have therefore been crystallized in the two groups of what you call PRODUCE ANIMALS and PETS.

Then you have selected us, processed and manipulated us to make us become, for your pleasure, meat, dairy produce, eggs, working animals, testing animals, fur animals... ANYTHING-THAT-COULD-BE-USEFUL for your life, your power, your income and your vices.

We, PEOPLE of TRAUMA, do not have lawyers or defenders, and the regulations you have created for us do not protect us as they should, but are only meant to allow you to continue to induce injuries in accordance with the law, protecting some while killing others!

We, PEOPLE of TRAUMA are several billions, reluctantly. We are several billions because we are forced to be born and reproduce ourselves to support your interests. You create what you yourselves call the industrial system of the production of trauma. You have made trauma a productive system that weighs heavily on the life and death of billions of our fellows.

You produce ephemeral and unnecessary material wealth, traumatizing us all over the world, every day, with each of our animal species, in every possible way. You don't destroy us for eliminate us completely (that would be wanted just for some of us that you call harmful) but you destroy us to repeat the slaughter.

You don't understand that doing this you aren't going anywhere. We know, however, that you have gone on the Moon and other planets and you're eager to find out what lies beyond the infinite sky.

There was one of you, one of you which you call philosophers, a certain Max Horkheimer, who spoke of a nice view of a star lit sky from the last floor window of a skyscraper which represents the social structure of the present, with the roof being a cathedral and the basement being a slaughterhouse.

So, this is pyramid of discrimination that stands above us which we invite you to consider. Very often the mere view of a starry sky, which everyone is entitled to enjoy, is denied to us, as well as other things, also simple and free: a grassy area, a mate or a companion, breastfeeding, proper food, shelter, un-violent treatment, in one word... a worthy life followed by a dignified death.

We, PEOPLE of TRAUMA right here in this Congress - made up of people who want to see further and, as you say, in a holistic way - want to remind you that we are exterminated without interruption, nor mercy. We would like to give you some figures because the numbers are so large that most of you can't even imagine.

You, non-human animals lock us in places that call farms, reproduce us, exploit us, and finally slaughter something, or rather someone, like over 50 billions of our so-called domestic fellows. Consider that you are about 7 billion today so try to make the proportions.

Then, please, also make the connections.

You pull out countless amounts of sea creatures: you talk about trillions... trillions of trillions...

You want that we produce alot, eat little, don't often get sick, grow quickly, are content with little space, we behave well and we calmly let you kill us.

We know that the homeopathic medicine you practice adopts a broader view of LIFE. We ask ourselves: are we, non-human animals, along with our daily and planetary traumas inflicted by you, part of your consideration?

For most of our lives you keep us locked in tiny cages, mutilate our tails, our teeth, noses, ears, horns, genitals, nails and vocal cords. You force us with beatings and electric shocks to get on overcrowded and distressing trucks, to travel long distances in the cold and in the heat, often without food or water. How many of us die or are traumatized during these journeys and no longer able to pull ourselves back on our feet?

In whatever condition we get to those places you call slaughterhouses, we are sent in the chambers of death with the same violence and neglect. We are traumatized by the terror that reigns in these factories of death. Screams, vapors, odors, noise, blood, feces, urine, bodily fluids of various nature... here, the trauma becomes matter and system.

In the slaughterhouses you shoot an iron cylinder in our heads or we are gassed or stunned with electricity. You say that this protects us from pain because we are stunned before death. But death will be neither quick nor painless. You know this, but still prefer not to think about it.

One of your fellows who you call the Pope, a certain Pio XII, one day said the following words to the workers of slaughterhouses in Rome: "Do not be more impressed by the groans of the beasts than by hammer blows on red-hot metal slates."

We are not metals to be hit with hammers! No, we're not, we are live beings like you. We are, as you yourself have acknowledged, sentient beings. We feel feelings, emotions, pleasure and pain, just like you. And do not be surprised if we tell you that we also, have self awareness.

Nevertheless, after having stunned us, you slash our throats, stab our heart with a knife, cut the ends and limbs of us, and reduce us to pieces when we are still conscious. You immerge us in boiling water and cut us in half as you would with logs. Some of you cut our throat, extract our heart and lungs while we are still alive, just because you say that a man who you call God told you to do so.

In other places we are skinned alive, have electric discharge in our mouths and rectums, we are strangled, have our necks twisted, drowned , beaten to death, thrown alive in garbage trucks, poisoned, captured with traps, harpooned when we are still puppies, asphyxiated, vivisected, made to perform exercises that we don't understand, crushed alive at only 1 day of age, forced to fight, shot while we migrate, shot while we run and captured.

You kill our offspring and our parents, you force feed us, you punch us, poison us, and make us develop serious and painful illnesses.

In the end... luckily... you kill us all, so at least we are freed from all the suffering and the continuous TRAUMA.

You pretend you are unaware or don't understand and you strive to find excuses. Though sometimes you are disturbed when you see us suffer. Yet, you do not change.

Instead, we PEOPLE of TRAUMA, urge you to open your eyes, to be aware, to make connections, to act, to change. We know that you homeopaths have powerful tools to change the view of the world, so come on, have courage, and also use them for our cause.

We are part of the world, we are citizens of this planet, we are your co-habitants. It is true that we are different from you : we have other shapes, other expressions, other languages, other thoughts, other values. We host an inner world which you know little about.

But just like yourselves. we suffer and just like yourselves, we have the right not to suffer.

In the end we are all part of the same adventure.

You have traveled in space but you don't know where you come from and where you're going. We came millions of years before you, but you don't understand that there is NO SUCH THING as an "Us" and a "You"

You were us, and we were you.

Today, we, PEOPLE of TRAUMA, invite you, community of Homeopaths, to not consider us a marginal issue. We are now, at this very moment, trapped in physical and psychological trauma.

Do not forget this.

Remember this while walking, while traveling, while reading homeopathy text-books, while at the table when you are offered spare parts of our tortured and dismembered bodies.

You homeopaths can make a difference. Think about it while looking up at a starry sky and remember that billions of us do not even know that there are the stars.

People like you homeopaths - who have decided to change the world by changing the single point of view - have the power to show the stars to those who once lived in the basement of the pyramid of the living being.

Take good care of us too, because we, are already taking care of you.

We are confident while awaiting our freedom, for it will be yours, too.

Signed

**THE PEOPLE OF TRAUMA**
